DESCRIPTION

California Assembly Bill 5 (AB 5), which went into effect on January 1, 2020, established the ABC test for determining whether a worker is an independent contractor or an employee. A federal district court, however, recently granted a preliminary injunction requested by the California Trucking Association, which prevents state agencies from enforcing the ABC test as to any motor carrier operating in California. Join this webinar for an update on what motor carriers need to know about the latest developments regarding AB 5, how to ensure compliance with California's independent contractor laws, and what to expect next in 2020.
