WEBINAR

AI and Professional Responsibility: Emerging Ethical Standards and Risks

The ethical rules have not changed, but the environment in which they apply has. AI-driven hiring tools, workforce analytics platforms, bias audits, and cross-functional data sharing now test familiar obligations, such as confidentiality, competence, and privilege protection, in unfamiliar ways. This webinar will examine how the Model Rules of Professional Conduct (including Rules 1.1, 1.6, 3.3, 5.1, and 5.3), related state bar and court rules, and other laws apply when legal departments and other stakeholders use AI-driven tools. The speakers will share practical tips and strategies for leading the AI ethics conversation at every level of an organization, from the legal department to the boardroom.

SPEAKERS

Simone R. D. Francis (St. Thomas/New York)
Lauren B. Hicks (Indianapolis/Atlanta)
Anna K. Potter, *Moderator*

DATE

Tuesday, December 15, 2026
