DESCRIPTION

California Governor Gavin Newsom just announced that California would implement a regional stay-at-home and business shutdown order based on the rise in the number of COVID-19 cases and the percentage of intensive care unit beds available in five regions of the state. Following the announcement, many counties immediately issued their own shutdown orders. In this webinar, our speakers will explain when the governor's order applies, discuss the relationship between state and local orders, and analyze the orders' impact on businesses. The speakers also will address how the orders may affect holiday travel and the ability of employers to restrict such travel. Finally, the speakers will discuss the steps that employers can take now to comply with the orders and reduce risk.
