### **DESCRIPTION**

While the \$1 trillion infrastructure bill signed by President Biden in 2021 offers a boon for some construction contractors, these profitable projects come with affirmative action and non-discrimination obligations that the Office of Federal Contract Compliance Programs (OFCCP) enforces. The agency has scheduled more than 100 construction audits using rigorous data and document requirements, and more audits are on the horizon. In addition, OFCCP recently launched a new secure online platform for covered contractors, the Notification of Construction Contract Award Portal. In this webinar, the speakers will share their insights on how to prepare for and successfully defend an OFCCP construction audit and provide best practices for complying with applicable federal contractor construction regulations.
