DESCRIPTION

In December 2021, the Office of Federal Contract Compliance Programs (OFCCP) announced a new requirement that federal contractors and subcontractors must certify compliance through its new OFCCP Contractor Portal. The agency provided few details in its initial announcement, but released more information on February 1, 2022, about how to navigate the registration process. In this webinar, the speakers will provide insight into the registration process, discuss the practical implications for covered contractors, and offer tips to assist contractors in complying with this new obligation.
