DESCRIPTION

Incidents of workplace violence, including harassment, threats, cyberbullying, and even active shooter situations, have become commonplace. Creating a violence-free workplace is every organization's goal, but how do employers foster a safe environment? Join our speakers as they share their insights for identifying the early warning signs of violent behavior and implementing an action plan to prevent (or minimize the impact of) incidents of violence. The speakers will also provide an overview of the current state of firearms restrictions across the United States to help employers create a foundation for what they can and cannot do with regard to their workplace violence prevention plans.
