DESCRIPTION

On January 14, 2022, updates to the California Division of Occupational Safety and Health's (Cal/OSHA) COVID-19 Prevention Emergency Temporary Standards (ETS) will take effect. In addition to these changes, the California Department of Public Health (CDPH) recently revised its guidelines for exclusion and return to work, which are now applicable. With the updated guidance, the CDPH's position appears to be consistent with the federal Centers for Disease Control and Prevention's recommended five-day isolation and quarantine period for the general population. In this webinar, the speakers will take a deep dive into compliance, benchmarking, and best practices.
